

## **WORSHIP PLANNING REPORT 2021**

The Worship Planning group has met throughout the year on Zoom to plan services, to see how well they have worked and to look at new material. Our biggest challenge, as last year, has been to continue worship during lockdown.

Skilfully put together by Simon and with much work by those taking part, the online services have been appreciated by our congregation, by Highfield Methodist and by people far beyond Sheffield. Throughout there has been a Wednesday morning service followed by discussion and more recently the church has been open for private prayer and for a short Sunday afternoon service. Taize in Advent and Lent, bulb planting at All Souls and Holy Week meditations have added to our worship. As to when we will be able to worship together in our bright church building, that is still unknown, but it will happen one day when it is safe to do so.
